(*Currently Pursuing)

Experience:

Android App Development Intern, CodSoft (1-month virtual internship, Jul 2026 – Aug 2026)

Building practical Android app projects independently as part of a self-paced virtual internship, applying core app development concepts, UI design, and debugging while managing tasks and deadlines autonomously.

Technical Skills:

Languages & Web: HTML, CSS, JavaScript, ReactJS, Tailwind CSS, Python, C, SQL, Kotlin, Android Studio
Back-end & Databases: Firebase, Supabase, MySQL, RoomDB, SQLite
Applications & Tools: Git/Github, VS Code, IntelliJ Idea, Canva, MS Office 2019, NodeJS, Vercel, Jetpack Compose
Concepts: SDLC, Agile development, Scrum, Debugging, API Integration

Certifications and Achievements:

- Led a team of 6 in 24-Hour Brain and Bytes Internal Hackathon, developing a Pet Health and Care web application, receiving a participation certificate for completion of event successfully. [Aug 2025]
- Completed Coursera Frontend Development Fundamentals, covering HTML, CSS and JavaScript. [Sept 2025]
- Completed the Common Wealth Bank Software Engineering Job Simulation (Forage), gaining experience in iOS development, IAM and technical analysis. [July 2026]

- Completed the Deloitte Australia Technology Job Simulation (Forage), gaining experience in software development and dashboard design. [July 2026]
- Submitted two innovative project proposals as a part of Smart India Hackathon (SIH), collaborating with a team on problem identification, solution design and presentation.

Project Profile:

- **Lost and Found Portal for College** **[GITHUB]**
  Tech Stack: HTML, CSS, PHP, MySQL, XAMPP, VS Code
  Developed a web-based system to manage lost and found items on campus using PHP and MySQL. Improved item reporting and search efficiency while coordinating project planning and task execution.
- **Pet Health and Care Web App** **[GITHUB]**
  Tech Stack: HTML, CSS, JavaScript, Firebase, Gemini API
  Built a responsive pet care web application with Firebase as auth and backend support and Gemini API integration for AI chatbot. Collaborated in a 24-Hour hackathon, contributing to development, teamwork and problem solving.
- **Secure File Sharing Portal for College**
  Tech Stack: ReactJS, Supabase
  Developed a secure file sharing platform with file upload/storage using Supabase and a role-based interface. Led module development and coordinated front-end/back-end integration with a focus on usability.
